Subject Index

Adhesion efficiency, platelet density and size (POLANOWSKA-GRABOWSKA *et al*), 715
AIDS progression, towards a new predictor of, through the quantitation of HIV-1 DNA copies by PCR in HIV-infected individuals (LEFRÈRE *et al*), 467
Anaemia, autoimmune haemolytic, identification of autoantigens in, by a non-radioisotope immunoprecipitation method (BARKER *et al*), 126
Anaemia, autoimmune haemolytic, red cell autoantibody production by colonic mononuclear cells from a patient with ulcerative colitis and (YATES *et al*), 753
Anaemias, idiopathic aplastic and Fanconi's, serum immunoreactive erythropoietin in patients with (DAS *et al*), 601
'Antiphospholipid antibodies', some, bind to β-glycoprotein I in the absence of phospholipid (KEELING *et al*), 571

Band 3-Memphis is associated with a lower transport rate of phosphoenolpyruvate (IDEGUCHI *et al*), 122
Basophilia, natural interferon-alfa for (YAMAGATA *et al*), 780
B-cell malignancies, mature, still a useful marker for differentiating: mouse erythrocyte rosette formation with malignant human B-lymphocytes re-evaluated (HOKLAND *et al*), 560
Bleeding time, sustained correction of, in an afibrinogenaemic patients after infusion of fresh frozen plasma (CATTANEO *et al*), 388
Bone marrow graft, an allogeneic, transfer of specific immunity from donor to recipient of: evidence for donor origin of the antibody producing cells (LABADIE *et al*), 437
Book reviews
Advances in Chronic Lymphocytic Leukaemia, 785
Case Studies in Transfusion Medicine, 632
Multiple Choice Questions in Haematology, with Answers and Explanatory Comments, 632
Neoplastic Disease of the Blood, 632
Standard Haematology Practice, 180
The Leukaemic Cell, 785
Bryostatin 1 and rGM-CSF, effects of, on the metabolism of 1-β-D-arabinofuranosylcytosine in human leukaemic myeloblasts (GRANT *et al*), 522

Chemotherapy, intensive induction, in elderly patients (REIFFERS *et al*), 175
c-kit, the growth factor receptor, antigenic analysis of human haemopoietic progenitor cells expression (STROBL *et al*), 287
Complement regulatory proteins, CD35 (CR1), CD46 (MCP) and CD55 (DAF) in human haematological malignancies, levels of (HARA *et al*), 368
Congenital dyserythropoietic anaemia type II (HEMPAS), incompletely processed *N*-glycans of serum glycoproteins in (FUKUDA *et al*), 745

Diamond-Blackfan anaemia long-term cultures, the production of Stell factor mRNA in, and interactions of Steel factor with erythropoietin and interleukin-3 (SIEFF *et al*), 640

Enoxaparin and unfractionated heparin, prophylactically equivalent doses of, inhibit *in vivo* coagulation to the same extent (OFOSU *et al*), 400
Enoxaparin, the low molecular weight heparin, inhibits the consumption of factor VII and prothrombin activation *in vivo* associated with elective knee replacement surgery (OFOSU *et al*), 391
Epstein-Barr viral DNA in aggressive $CD8^+$ T cell leukaemic cells, detection of (SUZUSHIMA *et al*), 774
Erythropoiesis, normal and pathological, *in vitro* studies of (REID), 483
Etoposide, low-dose: a potential therapy for myelodysplastic syndromes (OGATA *et al*), 354

Factor VIII concentrates, enhancement of human T cell responses to allogenic stimuli by (BATCHELOR *et al*), 94
Factor XIII deficiency, a reversed activity staining procedure for detection of an acquired antibody against factor XIII in a girl with (SEIVING *et al*), 414

Glycoprotein 1, β_2- (β_2GP1) enhances cardiolipin binding activity but is not the antigen for antiphospholipid antibodies (PIERANGELI *et al*), 565
Graft-versus-host disease, transfusion-associated, monoclonal gammopathy and PCR (BLUNDELL *et al*), 622
Granulocyte antibodies in sera, quantitation of, and determination of their binding sites (BUX *et al*), 20
Granulocytic cell line, a novel, which can adhere to dermal fibroblasts from a patient with granulocytic sarcoma in dermal tissues and myelofibrosis, establishment of (KOBAYASHI *et al*), 26

Haemoglobin, a new high oxygen affinity (Hb Luton, α89 His→Leu), and α thalassaemia trait, the combination of, polycythaemia and microcytosis arising from (WILLIAMSON *et al*), 621
Haemoglobin F levels in sudden infant deaths (FAGAN & WALKER), 422
Haemophilia A, adjusted dose continuous infusion of factor VIII in patients with (MARTINOWITZ *et al*), 729
Haemophiliacs, cellular and humoral immune responses in, after vaccination against tick-borne encephalitis (WOLF *et al*), 374
Haemophilic flexion deformities, treatment of, using the Flowtron intermittent compression system (YATES *et al*), 384
HIV in haemopoietic progenitors, detection of (KACZMARSKI *et al*), 764
Hodgkin's disease and normal lymphoid tissue, EBV infection patterns in: expression and cellular localization of EBV gene products (HUMMEL *et al*), 689
Hodgkin's disease, *in vivo* targeting of Hodgkin and Reed-Sternberg cells of, with monoclonal antibody Ber-H2 (CD30): immunohistological evidence (FALINI *et al*), 38
Human immunodeficiency virus infection, advanced, serum erythropoietin levels in anaemic patients with (CAMACHO *et al*), 608

Idiopathic thrombocytopenic purpura, antiplatelet antibodies in (ÖZSOYLU), 173
Immune thrombocytopenic purpura, further concern over use of alpha-interferon in (HUDSON *et al*), 630
Integrin, αIIb, in human early haematopoietic stem cells, lack of transcription and expression of (MOLLA *et al*), 635
Interferon, type II, may be a potential hazardous therapeutic agent during pregnancy (VASSILIADIS & ATHANASSAKIS), 782
Interleukin-2 induces activation of coagulation and fibrinolysis: resemblance to the changes seen during experimental endotoxaemia (BAARS *et al*), 295
Interleukin-3, bone marrow cells from A/J mice do not proliferate in, but express normal numbers of interleukin-3 receptors (HAPEL *et al*), 488
ITP, chronic, and splenectomy in children (REID), 481

Large granular lymphocyte (LGL)/NK-associated (NKa) abnormality, a distinct, characterized by membrane CD4 and CD8 coexpression (RICHARDS *et al*), 494
Leucocytes, human peripheral blood, human serum stimulates the production of G-CSF, IL-1, IL-6 and IL-8 by (QUESNIAUX *et al*), 6
Leucocytosis, marked, t(8;21), absent Philadelphia chromosome, but rearranged BCR gene, a patient with (CHENG *et al*), 171
Leukaemia, acute megakaryoblastic, patients, long-term treatment results for: a multicentre study (RUIZ-ARGÜELLES *et al*), 671
Leukaemia, acute myelogenous, biological characteristics of CD7 positive (ETO *et al*), 508
Leukaemia, acute myelogenous, inactivation of the retinoblastoma gene in (TANG *et al*), 502
Leukaemias, acute myelogenous, re-emergence in remission of primary clone in, with multiple chromosomal aberrations at diagnosis (HEIM *et al*), 332
Leukaemia, acute myeloid, in relapse, the selective use of AMSA following high-dose cytarabine in patients with: a Leukemia Intergroup Study (LARSON *et al*), 337
Leukaemia, acute myeloid, lymphoid lineage-associated features in: phenotypic and genotypic correlations (PAIETTA *et al*), 324
Leukaemia, acute myeloid, prognostic irrelevance of CD34 in (SELLERI *et al*), 479
Leukaemia, acute myeloid (AML), with inversion of chromosome 16 (Inv(16)) and Philadelphia chromosome (Ph), cytogenetic and molecular remission in a case of (PREUDHOMME *et al*), 623
Leukaemia, acute promyelocytic, diagnosis of, by RT-PCR: detection of *PML-RARA* and *RARA-PML* fusion transcripts (BORROW *et al*), 529
Leukaemia, adult T cell, disappearance of CD4 antigen in a case of (MIYAZAKI *et al*), 770
Leukaemia, childhood acute lymphoblastic, CNS-directed therapy in (HANN), 2
Leukaemia, chronic lymphocytic, expression of myeloid associated antigens in (PINTO *et al*), 173
Leukaemia, chronic myelogenous, detection of minimal residual disease by polymerase chain reaction of bcr/abl transcripts in, following allogeneic bone marrow transplantation (LEE *et al*), 708
Leukaemia, chronic myelogenous, pregnancy during myelosuppressive treatment for (DELMER *et al*), 783
Leukaemia, chronic myelogenous, quantitative determination of the hybrid Bcr-Abl RNA in patients with, under interferon therapy (MALINGE *et al*), 701
Leukaemia, chronic myeloid, therapy with recombinant alpha-2c during unexpected pregnancy in a patient with (REICHEL *et al*), 472
Leukaemia, hairy cell, expression of the IFNα receptor in (PLATANIAS *et al*), 541
Leukaemia, hairy cell, massive abdominal lymphadenopathy in: a report of 12 cases (MERCIECA *et al*), 547
Leukaemia, myeloperoxidase negative acute myelogenous (FAB: AML-MO), detection of H-RAS point mutation in (IMAMURA & KURAMOTO), 776
Leukaemia, Philadelphia chromosome-positive chronic myelogenous, simultaneous establishment of myeloid and B-lymphoid cell lines with identical chromosome abnormalities from (YASUKAWA *et al*), 515
Lymphocyte function, human, effect of orally active hydroxypyridinone iron chelators on (PATTANAPANYASAT *et al*), 13
Lymphocytes of normal origin, human, the production of human monoclonal antiplatelet autoantibodies derived from: reactivity to DNA, anionic phospholipids and platelet proteins (DENOMME *et al*), 99
Lymphocytosis in the lymphoproliferative disease of large granular lymphocytes, exercise-induced variations of (DE PASQUALE *et al*), 178
Lymphoma, advanced T cell lymphoblastic, treatment of: results of the United Kingdom Children's Cancer Study Group (UKCCSG) protocol 8503 (EDEN *et al*), 310
Lymphoma, Ki-1 positive T-cell non-Hodgkin's, in a patient with HIV infection, spontaneous regression of (DIEKMAN *et al*), 477
Lymphoma, malignant, recombinant human granulocyte–macrophage colony stimulating factor after autologous bone marrow transplantation for: a British National Lymphoma Investigation double-blind, placebo-controlled trial (KHWAJA *et al*), 317
Lymphoma, non-Hodgkin, follicular dendritic cells in, express adhesion molecules complementary to ligands on neoplastic B-cells (PETRASCH *et al*), 695

Lymphoma, Philadelphia-positive intermediate lymphocytic, in leukaemic phase, lack of M-bcr rearrangement with B3a2 junction revealed by chain reaction in a case of (HERNÁNDEZ *et al*), 626

Mitogenic role for extracellular calmodulin-like activity in normal human umbilical vein endothelial cells (DAWSON & MACNEIL), 151
Multiple myeloma and bone marrow fibrosis, monitoring of, with aminoterminal propeptide of type III collagen (PIIINP) (TAUBE *et al*), 32
Multiple myeloma, argyrophilic nucleolar organizer counts and prognosis in (PICH *et al*), 681
Multiple myeloma, comparison of plasma cell infiltration in bone marrow biopsies and aspirates in patients with (TERPSTRA *et al*), 46
Multiple myeloma, erythropoiesis in: defective red cell production due to inappropriate erythropoietin production (BEGUIN *et al*), 648
Myelodysplastic syndrome associated wtih increased bone marrow fibrosis and translocation (5;12) (q33;p12·3) (LERZA *et al*), 476
Myelodysplastic syndrome in children, primary: the clinical experience in 33 cases (TUNCER *et al*), 347
Myelodysplastic syndrome, translocation (3;21) (q26·2;q22·1) found in a patient with, and long-term exposure to organic solvents (TASAKA *et al*), 473
Myelodysplastic syndromes, age-related and other epidemiological aspects of (AUL *et al*), 358
Myelofibrosis, primary, allogeneic bone marrow transplantation for (CREEMERS *et al*), 772
Myelokathexis, neutrophil-releasing activity of recombinant human granulocyte-macrophage colony stimulating factor in (BOHINJEC & ANDOLJŠEK), 169
Myeloma, multiple independent immunoglobulin class-switch recombinations occurring within the same clone in (PALUMBO *et al*), 676
Myeloma, plasma cell leukaemia with alpha-interferon therapy in (SAWAMURA *et al*), 631
Myeloma, primary refractory and relapsed plasma cell, modified adriamycin–vincristine–dexamethasone (m-VAD) in: an NCI (Canada) pilot study (BROWMAN *et al*), 555
Myeloma, transient plasmacytosis with acute infection in (MURAYAMA *et al*), 475

Neutrophil functions in aged animals, effects of recombinant human granulocyte colony-stimulating factor on (YOSHINO *et al*), 664
Neutrophil levels, oral, in patients receiving G-CSF after autologous marrow transplantation, studies of (LIESCHKE *et al*), 589

Paroxysmal nocturnal haemoglobinuria, the predictive value of serum haptoglobin in (CAO *et al*), 778
Parvovirus B19, human, replication *in vitro*, immunophenotyping of fetal haemopoietic cells permissive for (MOREY & FLEMING), 302
P-glycoprotein in human tumour samples, detection of activity of, using rhodamine 123 (LUDESCHER *et al*), 161
Platelet α-granular fibrinogen, the influence of therapeutic blocking of Gp IIb/IIIa on (HARRISON *et al*), 721
Polycythaemia vera, erythropoietin-independent colony growth in, is not restricted to progenitor cells with trisomy of chromosome 8 (KANFER *et al*), 773
Polyethylene glycol (PEG) modification of granulocyte-macrophage colony stimulating factor (GM-CSF) enchances neutrophil priming activity but not colony stimulating activity (KNÜSLI *et al*), 654

Red blood cells, autologous, cytotoxicity of activated platelets to (OKADA *et al*), 142
Red cells, density separated AS-3, after extended storage, improved post-transfusion quality of (KEEGAN *et al*), 114
Renal disease, end stage, regulation of iron absorption in iron loaded subjects with: effects of treatment with recombinant human erythropoietin and reduction of iron stores (HUGHES *et al*), 445
Rosettes formed by red blood cells parasitized by *Plasmodium falciparum*, rheological properties of (NASH *et al*), 757

Skin necrosis with a low molecular weight heparin (OJEDA *et al*), 620
Spherocytosis, hereditary, homozygosity for dominant form of (DURU *et al*), 596
Stomatocytosis, hereditary: phenotypical expression of sodium transport and band 7 peptides in 44 cases (KANZAKI & YAWATA), 133

Tachyphylaxis in patients with haemophilia and von Willebrand disease after repeated doses of desmopressin (DDAVP), patterns of development of (MANNUCCI *et al*), 87
T cell IL-2 secretion, mechanisms of, by factor VIII concentrates (WADHWA *et al*), 575
Thalassaemia, β-, major patients treated with desferrioxamine and L1, serum non-transferrin-bound iron in (AL-REFAIE *et al*), 431
Thalassaemia, β-, with unusually high Hb A_2, molecular characterization of a novel 10·3 kb deletion causing (CRAIG *et al*), 735
Thalassaemia, β°-, Australian: a high haemoglobin A_2 β°-thalassaemia due to a 12 kb deletion commencing 5′ to the β-globin gene (MOTUM *et al*), 107
Thalassaemia, beta, in the indigenous British population (HALL *et al*), 584
Thalassaemia, δβ-, 32·6 kb Indian, deletion ends in a 3·4 kb L1 element downstream of the β-globin gene (GILMAN *et al*), 417
Thalassaemia, transfusion dependent, long-term assessment of efficacy and safety of L_1, an oral iron chelator, in: Indian trial (AGARWAL *et al*), 460
Thrombin generation, inhibition of, by heparin and low molecular weight (LMW) heparins in the absence and presence of platelet factor 4 (PF4) (PADILLA *et al*), 406
Thrombocytopenia, heparin-induced, pathophysiology of (KELTON & ANDERSON), 778
Thrombocytopenia, heparin-induced, treatment of, by use of argatroban, a synthetic thrombin inhibitor (MATSUO *et al*), 627
Thrombocytopenia, prevalence of, in HIV-infected and non-HIV infected drug users and homosexual men (MIENTJES *et al*), 615
Thrombocytosis, variable expression of features of normal and neoplastic stem cells in patients with (TURHAN *et al*), 50
Ticlopidine and severe aplastic anaemia (TROUSSARD *et al*), 779
t-PA, about familial defective release of (PETÄJÄ *et al*), 781
Transferrin uptake by bone marrow macrophages is independent of the degree of iron saturation (RAMA & SÁNCHEZ), 455
Transfusion, function of acid-treated platelets for (MURPHY *et al*), 176

von Willebrand disease family studies: comparison of three methods of analysis of the von Willebrand factor gene polymorphism related to a variable number tandem repeat sequence in intron 40 (GAUCHER *et al*), 73
von Willebrand disease, type IIA, defects in: a cystein 509 to arginine substitution in the mature von Willebrand factor disrupts a disulphine loop involved in the interaction with platelet glycoprotein Ib-IX (LAVERGNE *et al*), 66
von Willebrand's disease, acquired, efficacy of high-dose intravenous gammaglobulin in the management of, during orthopaedic surgery (GROSS *et al*), 170
von Willebrand's disease, type IIB: gene mutations and clinical presentation in nine families from Denmark, Germany and Sweden (DONNÉR *et al*), 58
von Willebrand factor, porcine, interaction of, with the platelet glycoproteins Ib and IIb/IIIa complex (PARETI *et al*), 81
